

Grazing License Special Stipulations:

- The licensee shall develop a Noxious Weed Management Plan (NWMP) in conjunction with the DNRC Hamilton Unit Office to address noxious weed management concerns across the area of the license for the duration of the license term. The licensee shall work with the Ravalli County Weed District in conjunction with the DNRC Hamilton Unit Office in the development and implementation of the NWMP.
- The licensee shall construct and maintain a boundary fence around the state land. The licensee shall inform the DNRC Hamilton Unit Office of all intentions to construct fencing on or around the License to document the improvement. The boundary fence shall be built to the standards of a legal fence as determined by MCA 81-4-101.
- The Licensee will maintain the current fencing on the lower portions of Praine Creek and Andrews Creek.
- The grazing season for this license shall be June 1 through September 30.
